LANSLOWNE
& COMPANY

advised

on the investment in Prokarium

Lansdowne & Company conducted the commercial due diligence for Riyadh Valley Company, the investment vehicle of King Saud University, for the successful investment in Prokarium.

Prokarium is a biopharmaceutical company focused on developing vaccination solutions based on synthetic biology. Prokarium's oral vaccine delivery platform Vaxonella stimulates broad protective immune responses applicable to a wide range of diseases. Prokarium's vision is that all protein vaccines can be delivered orally. Prokarium is based in Keele and London, UK.
